Paper Submission

Please click "Paper Submission"

There are three tracks to choose:

- 1) **Abstract Only Track:** This track welcomes papers that are published abstract only
- 2) **Full Paper Track:** This track welcomes papers that are fully completed and published as a full paper in the conference proceedings
- 3) **Paper in Progress Track:** This track welcomes papers and proposals that are not fully completed and still on-going. Both papers and proposals in this track are eligible to be published as full papers, if they are completed and the authors prefer this. The authors can also prefer to publish abstract only in every case.

After submitting one of the above tracks, your submission will be subject to double blind review process. Then you will receive a notification email within three weeks whether you are accepted or rejected for the conference. If you are accepted, we will send you an official acceptance letter and submission number that you should include in all further correspondence.

After your submission is accepted, you are required to

- 1) send your abstract or completed full paper in **required conference format**
- 2) make your full payment first and register.

If at least one of the authors does not register for the conference, his/her paper or abstract will not be published in the conference proceedings.
